

## CLUB PERFORMANCE PROGRAM 2019-2020

Dear Parents,

Dear Racers,

It is with great enthusiasm and pleasure that we welcome you to a new season as a member of the **Club Performance racing program**.

The main goal of our program is *to develop young all-around skiers while having them discover the love, the passion and the fun of skiing in a safe and healthy competitive environment where sportsmanship rules while fostering an attitude of "champion in sports and in life."*

Again this season we have a team of very dynamic and devoted coaches with a good mix of youth and experience. Our coaching team will continue to focus on the racer self-esteem, the respect of their peers and their environment while fostering a positive attitude. As partners in the athletic and personal growth of the young racers, our plan is to develop the values of tenacity, tolerance and the drive to excel.

Our success relies heavily on the constant efforts and motivation of our young athletes and also on the support we/they receive from all their parents. Candid, open and frequent communications between us is the corner stone's of that success. In our constant quest for excellence, the team of coaches will always accept your constructive comments. For us, your support will also consist in respecting our schedule for the start and end of each day and providing proper and well maintained ski equipment for your child. Of course, your encouragements during the trainings and races will be welcomed and also greatly appreciated.

Shortly, you will be able to find the following important documents on the program web site <https://clubperformancetremblant.com/> :

- Code of conduct for the racer (to be signed by the parents and racers) to be returned dully signed to the coach;
- Provisory calendar of training and races (subject to modification)

Do not hesitate to meet with your coach or contact us should you have any questions or comments regarding the program.

The coaching staff is appreciative of your support and wishes you a great winter and an unforgettable 2019-2020 ski season at Tremblant.
